

2026 Specialty Munitions Instructor Recertification Course

August 28th, 2026
0800-1700 hours

Kansas City, MO PD Academy
6885 NE Pleasant Valley Rd., Kansas City, MO 64119

\$100 Per Officer
Noise Flash Diversionary Devices (NFDD)
Chemical Munitions
Kinetic Energy Projectiles

Munition manufacturers are now beginning to require expiration dates on instructor certifications. The HTOA also believes that information, techniques and case law can change enough over time that prior HTOA instructor certifications will only be valid for three (3) years. Those certified prior to 2023 will need to complete the 32-hour course to become certified.

Certification requires each student pass a comprehensive final exam and demonstrate proficiency in each discipline as well as an ability to instruct. This instructor certification is recognized by Def-Tec and Combined Tactical Systems for purchases of their products and is valid for three years. If you have a question about original certification date, email admin@htoa.us.

Required Munitions/Equipment For Each Student – NO EXCEPTIONS

- Deployment Weapons (SL-6/Arwen/shotgun) used by your agency
- Gas mask, gloves, eye/ear protection, Nomex or Kevlar balaclava
- 1 - NFDDs (Training bang is acceptable)
- 5 - Bean Bags – If used by your agency
- 5 - 37mm / 40mm baton rounds – If used by your agency

****Reloaded training bean bag and baton rounds may be used with prior approval of instructor due to munition shortages nationally**

ALL REGISTRATION AND PAYMENT OPTIONS AT www.htoa.us
